COGON GRASS

FLOWER/SEED:
Inflorescences are showy and white, 2-8 inches long. Seeds are small attached to a plume of long hairs.

LEAF/BLADE: 3 – 10 ft long, 1” wide, hairy at base, tapers to a narrow base, margin is sharp, off-centered, light midrib, blade is reddish in fall. In the fall, it is easily confused with red fountain grass.

CLUMPING GRASS
