Diem of Southern Ag, and the education committee of the FNGLA 4H/FFA Plant Show and Sale team up for a series of workshops that help you put your best plant forward in the next Fair. Learn how to grow award winning plants to get top dollar at the Auction.

The first workshop August 29th will assist you with picking out plants, repotting them properly before the first check-in, and general care. Getting started with your record books and what entries the judges look for will also be covered. A follow-up workshop in the fall will focus on fertilizing, pest control, and preventing diseases.
