Are you in need of assistance or advice in planning your Florida Yard?

We can help!

Call 941/722-4524 x265 or visit manatee.ifas.ufl.edu
Homeowners who would like to schedule a meeting to discuss your residential landscaping plans to include:

- Outdoor water conservation
- Your property’s site conditions
- Selecting the right plants for your site conditions
- Attracting wildlife, Protecting the Waterfront
- Mulching and much more

Should bring in and/or have available when they come in to meet with a Yard Advisor:

- Survey and/or site sketch of property
- Soil Sample (see attach instructions)
- Plant samples for identification
- Location, size and identification of existing plants
- Structural features (i.e. A/C outside water source, downspout locations, power lines, driveways & walkways)
- Photos of your yard & plants
- Orientation of home on the property (North, S, E, W)
- An idea of moisture and light patterns in your yard - Wet vs. Dry and Full sun vs. Complete Shade
- Existing, special needs or desired functions in yard - water garden, BBQ area, pet area, wildlife area

By completing a Homeowner survey during your meeting, you will receive:

1. FYN Handbook, Plant List, Workbook &d Checklist
2. Individualized help in your Florida-Friendly Yard

Appointments are available on the

- 1st Wednesday of each month from 1pm –4pm
- 3rd Monday of each month from 3pm–7pm

You will meet for 2 sessions

Please call 941/ 722-4524 x265 to schedule your appointment or visit manatee.ifas.ufl.edu
